SUMMARY

Versatile Fullstack Developer with over 12 years of extensive experience in building and maintaining responsive, highperformance web applications. Proficient in a wide range of frontend technologies and frameworks, including React.js, Next.js, Gatsby, Vue.js, Nuxt.js, Quasar, Angular, and SvelteKit, with expertise in HTML, CSS, Sass/Less/Scss, and JavaScript (ES6+). Skilled in utilizing CSS frameworks such as Bootstrap, TailwindCSS, Material UI, Chakra UI, and Ant Design, as well as state management libraries like Redux, Zustand, Context API, Vuex, Pinia, NgRx, and Svelte Store.

On the backend, highly experienced with Node.js, Express, Laravel, and Ruby on Rails, developing robust and scalable serverside applications. Proficient in working with relational and non-relational databases, including MySQL, PostgreSQL, and MongoDB. Adept at implementing RESTful APIs and GraphQL for efficient data handling and integration.

Proficient in unit testing libraries and frameworks such as Jest, React Testing Library, Mocha, Chai, Jasmine, and Cypress, ensuring robust and reliable code. Familiar with version control systems including GitHub, GitLab, and Bitbucket, facilitating effective collaboration and code management within development teams.

Addictionally, developed and deployed smart contracts on Ethereum using Solidity, optimizing blockchain transactions for enhanced security and scalability; collaborated with cross-functional teams to integrate decentralized applications (DApps) into enterprise systems.

EXPERIENCE

06/2023 - 06/2024

Senior Full Stack Developer
Dialog Norge AS

Main developer for a robust back-office system, leveraging VueJS for the front-end and NodeJS for the back-end. Successfully implemented scalable solutions, optimized performance, and ensured seamless integration with existing infrastructure. Key contributions included designing RESTful APIs, enhancing user interface responsiveness, and deploying secure authentication protocols. Proficient in using modern development tools and frameworks such as Express, MariaDB, and Webpack. Demonstrated ability to troubleshoot complex issues and deliver high-quality code within tight deadlines

02/2020 - Present

Senior Project Manager
Individual Health Systems AS

Project Manager for mobile health app development, initially full-time and currently part-time. Oversaw the entire project lifecycle, from initial planning to deployment and ongoing updates. Coordinated cross-functional teams, managed timelines, and ensured the delivery of high-quality, user-centric health solutions. Implemented agile methodologies to enhance productivity and adapt to changing requirements. Demonstrated strong leadership in stakeholder communication, risk management, and resource allocation. Contributed to the successful launch and continuous improvement of a user-friendly, secure, and reliable mobile health application.

01/2019 - 02/2020

Senior Full Stack Developer
Self Employed

Full-stack web app developer for various minor projects, utilizing Angular for front-end development and NodeJS for back-end services, with Firebase for database management and authentication. Delivered efficient and scalable solutions by implementing modern web development practices. Enhanced user experience through responsive design and dynamic functionality. Demonstrated proficiency in developing RESTful APIs, integrating third-party services, and deploying applications on cloud platforms. Proven ability to work independently and collaboratively, ensuring high-quality code and timely project completion

EXPERIENCE

03/2015 - 01/2019

Senior Frontend Developer

ec3m GmbH

Developer for a back-office system utilizing Angular. Played a key role in designing and implementing a user-friendly and efficient interface. Responsible for developing dynamic components, optimizing application performance, and ensuring seamless integration with backend services. Utilized best practices in Angular development, including modular architecture, reusable components, and state management. Demonstrated strong problem-solving skills and the ability to deliver high-quality code within project deadlines.

05/2010 - 03/2015

Senior Backend Developer

J. Engebakken Invest AS

Main developer for a startup portal using Ruby on Rails. Led the design and implementation of the platform, ensuring robust functionality and scalability. Developed and maintained RESTful APIs, managed database integrations, and implemented secure authentication mechanisms. Collaborated closely with cross-functional teams to gather requirements and deliver features that meet business needs. Utilized best practices in Ruby on Rails development, including test-driven development (Scrum), continuous integration, and agile methodologies. Demonstrated a strong ability to troubleshoot issues and optimize performance for a seamless user experience

EDUCATION

1996 - 1998
Norway

Master's Degree in Computer Science

University of Oslo

1994 - 1996
Norway

Bachelor's Degree in Computer Science

University of Bergen

SKILLS

HTML	CSS	Javascript	Typescript	Bootstrap	Tailwind CSS	React.js	Next.js	Gatsby
Vue.js	Nuxt.js	Quasar	Angular	SvelteKit	Redux	Zustand	Vuex	Node.js	Express
PHP	Laravel	Ruby on Rails	Firebase	Supabase	Pinia	NgRx	Material UI	Tailwind UI
AntDesign	Chakra UI	Git	Trello	Jira	Slack	Jest	Mocha	Chai	Jasmine	Cypress
Figma	Adobe XD	Zepplin	PSD	Tool / Technology

MOST PROUD OF

My Courage

To always leave my comfort zone. I'm not afraid to do whatever I need to do to achieve my goals!

My Focus & Persistence

Despite any hard situation, I keep my focus on my goals and always move towards them

Keeping Good Relationship

I like to be a right-hand man regarding all the aspects
